Dear Parent/Carer,

Ref: Return of pupils to school in March

As you may be aware, Boris Johnson has today made a statement to the Commons and he will be addressing the nation at 1900 this evening. In this statement, he outlined that pupils would be returning to school as part one of the phased reopening of society. He also stated that pupils will be offered twice weekly testing to help make this return as safe as possible.

We are thrilled to be able to welcome all pupils back on site in the next few weeks. Please be assured that we will be in communication as soon as possible over the coming days with full details of how and when the pupils will return to school and how the testing of pupils will be implemented.

All guidance will be followed and we will continue to ensure the safety of all students and staff within our community.

Thank you for your continued support and patience during these times.

Best wishes,

Lindsay Skinner
Headteacher
